Dear Sir/Madam,

On behalf of the Program and Organizing Committee of the 1st Winter School organized in the frame of the 6th Framework Programme on Research, Technological Development and Demonstration, "Strengthening the Role of Women Scientists in Nano-Science" we would like to draw your attention to our WomenInNano Winter School, which will be held in the Congress Center of Hotel Larix, Kranjska Gora, Slovenia, on 7-9 February 2008.

The Winter School is going to offer top-quality courses on nano-science so as to attract a greater number of young scientists to this dynamic and new field of research, and especially to encourage women to pursue careers in this area. The school will provide an opportunity for networking, establishing mentoring schemes and promoting contacts between experts from European universities, scientific institutions and industry.

All participants, especially students and young post-docs, are encouraged to present their research work in the form of a poster. The deadline for the abstract submission and registration is 14 December 2007. The organizing committee is also going to offer some student grants. Young scientists should make reservation directly to the hotel via e-mail address

booking@hitholidays-kg.si

and use the keyword "WomenInNano" with the booking.

Please find all the details about the Winter School on the web page:
